Lane Caplinger

4/4/68 conversations with Barbara Reid.

Said she didn't know Kerry Thornley was coming to town. She was supposed to have gone but phoned and asked if she could send brother beceuse her little daughter was ill. Said Thornley was being "persecuted". Asked BR how she could "persecute" her friends.

"Everyone knows-are you denying that you are a witch?"

Barbara asked her "why not see Jim", anywhere?

Lane:"Madness! Do you think I'm crazy? Garrison has left his mind."

Then, for the third time, she said this has ruined Kerry's reputation.

Then Babrara said she'd not discuss this further.

This call was at 11:30 p.m. and the inference is that Kerry, "who had flown in" that day, was there.

Lane was provocative. She got angry and asked Barbara what her interest was. She said it w as a "dangerous game" Barbara was playing. She said this in a sinister way.
